Registrant's telephone number, including area code: (918) 513-4570

Not Applicable

(Former Name or Former Address, if Changed Since Last Report)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

o Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)

o Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)

o Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))

o Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))

Item 2.02. Results of Operations and Financial Condition.

On August 9, 2012, Laredo Petroleum Holdings, Inc. (the "Company") announced its financial and operating results for the quarter ending June 30, 2012. A copy of the Company's press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference. The Company plans to host a teleconference and webcast on August 9, 2012, at 10:00 am Eastern Time (9:00 am Central Time) to discuss these results. To access the call, please dial (866) 783-2140, or (857) 350-1599 for international callers, and use conference code 65527948. A replay of the call will be available through Thursday, August 16, 2012. The webcast may be accessed at the Company's website, www.laredopetro.com, under the tab "Investor Relations."

In accordance with General Instruction B.2 of Form 8-K, the information in this Item shall not be deemed "filed" for the purpose of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing.

Item 7.01. Regulation FD Disclosure.

On August 9, 2012, the Company issued the press release described above in Item 2.02 of this Current Report on Form 8-K. A copy of the press release is attached hereto as Exhibit 99.1.

All statements in the teleconference, other than historical financial information, may be deemed to be forward-looking statements within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results or developments may differ materially from those in the forward-looking statements. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise.

In accordance with General Instruction B.2 of Form 8-K, the information in this Item shall not be deemed "filed" for the purpose of Section 18 of the Securities Exchange Act of 1934, as amended, nor shall it be deemed incorporated by reference in any filing.

Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Description

99.1 Press release dated August 9, 2012 announcing financial and operating results.

3

15 West 6th Street, Suite, 1800 · Tulsa, Oklahoma 74119 · (918) 513-4570 · Fax: (918) 513-4571 www.laredopetro.com

LAREDO PETROLEUM HOLDINGS, INC. ANNOUNCES SECOND-QUARTER 2012 FINANCIAL AND OPERATING RESULTS

TULSA, OK — August 9, 2012 — Laredo Petroleum Holdings, Inc. (NYSE: LPI) ("Laredo" or "the Company") today announced second-quarter 2012 financial and operating results.

Second-Quarter 2012 Highlights

- Produced record volumes of 31,385 barrels of oil equivalent ("BOE") per day; up 36% year-over-year and up 12% from first-quarter 2012
- · Increased crude oil production 44% year-over-year
- · Increased revenues to \$140.6 million; up 7% year-over-year
- · Generated net income of \$31.0 million; \$0.24 per diluted share
- · Increased adjusted EBITDA to \$113.9 million; a 13% increase versus the prior-year amount

"Laredo's continued focus on the multi-stacked plays underlying our large acreage position in the Permian Basin led to a 44% increase in crude oil production," said Randy Foutch, Laredo's Chairman and Chief Executive Officer. "Our disciplined and deliberate approach of using science correlated with actual drilling results has moved us closer to the inflection points to determine the ultimate size of the Company's resource potential from this acreage and toward its efficient full-scale development."

Financial Results

Second-quarter 2012 net income was \$31.0 million (\$0.24 per diluted share) compared to \$41.1 million reported in the second quarter of 2011. Adjusted EBITDA for the second quarter of 2012 was \$113.9 million, an increase of 13% from the prior-year period. (See "Supplemental Reconciliation of GAAP to Non-GAAP Financial Measure (Unaudited)" on page 12 for a reconciliation of net income to adjusted EBITDA).

Production

For the second quarter of 2012, average daily production was 31,385 BOE per day compared to 23,081 BOE per day for the same period in 2011, an increase of approximately 36%. Total production for the

```
1
```

second quarter of 2012 was approximately 2.9 million barrels of oil equivalent ("MMBOE"). The 2012 production volumes were comprised of approximately 41% crude oil and condensate compared to approximately 38% in the 2011 quarter. The Company's continued activity focus on its Permian Basin acreage resulted in a 44% increase in oil and condensate production in the 2012 quarter as compared to the 2011 quarter, driving the increase in oil and condensate's percent of total production. For the second quarter of 2012, approximately 65% of production was generated in the Permian Basin, 27% in the Anadarko Granite Wash, and 8% in other areas.

Revenues and Costs

Laredo generated total revenues of \$140.6 million for the second quarter of 2012, which represents a 7% increase versus the comparable quarter of 2011. Revenue benefits associated with the Company's 36% increase in production volumes were partially offset by lower realized oil and natural gas prices. Before the effect of derivatives, the Company's realized average sales prices were \$85.45 per barrel of oil and \$3.95 per thousand cubic feet ("Mcf") of natural gas during the second quarter of 2012, a 13% and 40% decrease, respectively, from second-quarter 2011 realized prices. Laredo reports on a two-stream basis, realizing the value of the natural gas liquids ("NGL") in the natural gas stream. During the quarter, the industry saw pressure on NGL prices, most notably the pricing decrease in ethane and propane at both Mt. Belvieu and Conway. Revenue for the second quarter of 2012 was reduced by \$42.1 million, compared to the same period in 2011, as a result of the decreased commodity prices discussed above. The net dollar effect of lower commodity prices was offset by a \$50.9 million increase in revenue due to production volume increases in the second quarter of 2012 compared to the same period in 2011. The combined net effect of increased production volumes coupled with decreased commodity prices resulted in a total net increase to revenue of \$8.8 million in second-quarter 2012 compared to second-quarter 2011.

Including the effects of commodity derivatives, the Company realized average hedged sales prices of \$85.45 per barrel of oil and \$4.85 per Mcf of natural gas. This is a decrease of 9% and 30%, respectively, from the second quarter of 2011, and down 10% and 17%, respectively, from the first quarter of 2012. Laredo's realized gains on commodity hedges totaled approximately \$9.1 million during the quarter ended June 30, 2012.

Lease operating, production tax and general and administrative (excluding stock-based compensation) expenses for the second quarter of 2012 totaled \$34.8 million, or \$12.18 per BOE, a unit decrease of approximately 9% from the second-quarter 2011 rate of \$13.36 per BOE and a unit decrease of 21% from the first-quarter 2012 rate of \$15.38 per BOE. Lease operating expenses and general and administrative (excluding stock-based compensation) expenses for the 2012 second quarter of \$15.7 million and \$11.8

Depreciation, depletion and amortization ("DD&A") expenses for the second quarter of 2012 totaled \$60.7 million compared with \$43.4 million in the prioryear quarter. Higher total production volumes coupled with an approximate 3% increase in the depletion rate resulted in the increased expense. Unit DD&A expense for the 2012 quarter was \$21.25 per BOE.

Operations

Laredo drilled 63 gross (58 net) wells during the second quarter of 2012. Additionally, the Company completed 69 wells with a 100% success rate. Activities were concentrated on the Company's leasehold position in the Permian Basin.

Permian Basin

In the Permian Basin, the Company drilled 46 vertical Wolfberry, five horizontal Wolfcamp and four horizontal Cline wells, totaling 55 gross (52.5 net) wells during the second quarter of 2012. This activity continued the exploitation and development of Laredo's approximate 190,000 net acres in the basin. Well completions during the quarter included 52 vertical Wolfberry, two horizontal Upper Wolfcamp and four horizontal Cline wells, totaling 58 gross (53.2 net) wells.

Results of drilling and completion activities during the quarter, which included the Company's longest lateral test to date in the Upper Wolfcamp of approximately 7,500 feet, continue to meet the Company's modeled type curve. Also during the quarter, Laredo finished drilling its first horizontal Middle Wolfcamp well and has recently begun drilling its first horizontal test of the Lower Wolfcamp. Completion activities on these two wells are anticipated to begin during the third quarter.

Anadarko Granite Wash

Laredo had one vertical rig and three horizontal rigs drilling on its Anadarko Granite Wash acreage during second-quarter 2012. The Company drilled eight wells on its Anadarko Basin acreage during the quarter, with a 100% success rate. Of the total wells drilled in the Anadarko Basin, three were vertical wells and five were horizontal wells. The results of the wells completed in the Granite Wash continue to meet Company expectations.

Liquidity and Capitalization

As of June 30, 2012, Laredo's total debt balance was approximately \$1.1 billion, consisting of \$551.9 million 9½% senior unsecured notes due 2019 (including the unamortized note premium of \$1.9 million) and \$500.0 million 7³/₈% senior unsecured notes due 2022. The Company's \$2.0 billion senior secured credit facility, that currently has a borrowing base of \$785.0 million, was undrawn at June 30, 2012. Additionally, the Company had \$146.5 million in cash and cash equivalents at June 30, 2012, bringing total liquidity available to \$931.5 million.

Capital

During the second-quarter 2012, Laredo invested approximately \$234 million in total capital expenditures, with approximately \$200 million of that in drilling — 88% of which was in the Permian Basin. We continue to add targeted acreage in and around our core areas, and had a total of approximately 404,000 net acres at quarter end. We are still on track for our announced total capital expenditure budget of \$900 million for 2012 activity.

Guidance and Hedging

The Company confirmed its previous production guidance for the full year of 2012 in the range of 11.2 MMBOE to 11.9 MMBOE. The Company has modified its guidance for price realization and costs for the remaining six months of 2012 to reflect market conditions. The numbers provided below reflect the Company's updated guidance for the remaining six months of 2012.

Price Realizations (pre-hedge, two-stream basis, % of NYMEX):	
Crude oil	90% - 94%
Natural gas, including natural gas liquids	150% - 160%
Operating Costs & Expenses:	
Lease operating expenses (\$/BOE)	5.50 - 6.00
Production taxes	7.5%
General and administrative expenses (\$/BOE)	\$5.75 - \$6.25
Depreciation, depletion and amortization (\$/BOE)	\$20.50 - \$21.50

During the first six months of 2012 and in August 2012, the Company entered into additional oil commodity derivative contracts applicable for 2013, 2014 and 2015 to hedge a portion of its estimated future production. For more information on the Company's commodity contracts, please refer to Notes F

Conference Call

Laredo has scheduled a conference call to discuss its second-quarter 2012 financial and operational results and management's outlook for the future on Thursday, August 9, 2012 at 9:00 a.m. Central Time (10:00 a.m. Eastern Time). Participants may access the webcast, titled "Q2 2012 Laredo Petroleum Holdings, Inc. Earnings Conference Call," from the Company's website, www.laredopetro.com , under the tab "Investor Relations". The conference call may also be accessed by dialing (866) 783-2140, using conference code 65527948. It is recommended that participants dial in approximately 10 minutes prior to the start of the conference call. International participants may access the call by dialing (857) 350-1599, using conference code 65527948. A telephonic replay will be available approximately two hours after the call on Thursday, August 9, 2012 through Thursday, August 16, 2012. Participants may access this replay by dialing (888) 286-8010, using conference code 94769525.

About Laredo

Laredo Petroleum Holdings, Inc. is an independent oil and natural gas company with headquarters in Tulsa, Oklahoma. Laredo's business strategy is focused on the exploration, development and acquisition of oil and natural gas properties primarily in the Permian and Mid-Continent regions of the United States.

For additional information about Laredo, please visit our website at www.laredopetro.com.

Forward-Looking Statements

This press release (and oral statements made regarding the subject of this release, including the conference call referenced herein) contains forward-looking statements as defined under Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. All statements, other than statements of historical facts, that address activities that Laredo assumes, plans, expects, believes, intends, projects, estimates or anticipates (and other similar expressions) will, should or may occur in the future are forward-looking statements. The forward-looking statements are based on management's current belief, based on currently available information, as to the outcome and timing of future events. Factors that could affect the Company's business include, but are not limited to: the risks associated with oil, natural gas and liquids production; the Company's ability to find, acquire, market, develop, and produce new reserves; the risk of drilling dry holes; oil and natural gas price volatility; derivative transactions (including the costs associated therewith and the abilities of counterparties to perform there-under); uncertainties in the estimation of reserves and in the projection of future rates of production and reserve growth; inaccuracies in the Company's assumptions regarding items of income and expense and the level of capital expenditures; uncertainties in the timing of exploitation expenditures; operating

hazards attendant to the oil and natural gas business; drilling and completion losses that are generally not recoverable from third parties or insurance; potential mechanical failure or underperformance of significant wells; pipeline construction difficulties; transportation restrictions; climatic conditions; availability and cost of materials, equipment and services; the risks associated with operating in a limited number of geographic areas; the Company's ability to retain skilled personnel; impact of any acquisition opportunities; availability of capital; the strength and financial resources of the Company's competitors; regulatory developments, including with respect to hydraulic fracturing to our oil and gas wells; environmental risks; uncertainties in the capital markets; general economic and business conditions (including the effects of the worldwide economic recession); industry trends; and all of the risks and uncertainties normally incident to the exploration, development, production and sale of oil and natural gas. These risks relating to Laredo include, but are not limited to the risks described in its Annual Report on Form 10-K for the year ended December 31, 2011, the Quarterly Report on Form 10-Q for the quarter ended March 31, 2012 and those set forth from time to time in other filings with the SEC. These documents are available through Laredo's website at www.laredopetro.com under the tab "Investor Relations" or through the SEC's Electronic Data Gathering and Analysis Retrieval System ("EDGAR") at www.sec.gov . Any of these factors could cause Laredo's actual results and plans to differ materially from those in the forward-looking statements. Therefore, Laredo can give no assurance that its future results will be as estimated. We do not intend to, and disclaim any obligation to, update or revise any forward-looking statement.

Laredo Petroleum Holdings, Inc. Selected Operating Data (Unaudited)

	Three months ended June 30.			Six months e	nded Ji	me 30.
	 2012	cinaca	2011	 2012	lucu s	2011
Production data:						
Oil and condensate (MBbl)	1,164		808	2,231		1,517
Natural gas (MMcf)	10,152		7,754	19,034		14,866
Oil equivalents (MBoe) (1)(2)	2,856		2,100	5,404		3,995
Average daily production (Boe/d)	31,385		23,081	29,690		22,070
% Oil and condensate	41%)	38%	41%		38%
Average sales prices:						
Oil and condensate, realized (3) (\$/Bbl)	\$ 85.45	\$	98.53	\$ 91.23	\$	94.57
Natural gas, realized (3) (\$/Mcf)	\$ 3.95	\$	6.60	\$ 4.47	\$	6.26
Oil equivalents, realized (\$/Boe)	\$ 48.88	\$	62.27	\$ 53.40	\$	59.21
Oil and condensate, hedged (4) (\$/Bbl)	\$ 85.45	\$	93.43	\$ 90.20	\$	90.31
Natural gas, hedged (4) (\$/Mcf)	\$ 4.85	\$	6.93	\$ 5.31	\$	6.63
Oil equivalents, hedged (\$/Boe)	\$ 52.07	\$	61.53	\$ 55.95	\$	58.97
Average costs per Boe:						
Lease operating expenses	\$ 5.48	\$	4.85	\$ 5.67	\$	4.53
Production and ad valorem taxes	2.56		3.76	3.00		3.75
General and administrative (5)	5.05		5.01	5.91		4.95
DD&A	21.25		20.69	20.77		19.00
Total	\$ 34.34	\$	34.31	\$ 35.35	\$	32.23

(1) MBbl equivalents ("MBoe") are calculated using a conversion rate of six MMcf per one MBbl.

(2) The volumes presented are based on actual results and are not calculated using the rounded numbers in the table above.

(3) Realized crude oil and natural gas prices are the actual prices realized at the wellhead after all adjustments for NGL content, quality, transportation fees, geographical differentials, marketing bonuses or deductions and other factors affecting the price at the wellhead.

(4) Hedged prices reflect the after effect of our commodity hedging transactions on our average sales prices. Our calculation of such after effects include realized gains and losses on cash settlements for commodity derivatives, which do not qualify for hedge accounting.

(5) General and administrative includes non-cash stock-based compensation of \$2.6 million and \$0.6 million for the three months ended June 30, 2012 and 2011, respectively, and, \$4.8 million and \$0.9 million for the six months ended June 30, 2012 and 2011, respectively. Excluding stock-based compensation from the above metric results in general and administrative per BOE of \$4.14 and \$4.75 for the three months ended June 30, 2012 and 2011, respectively, and \$5.02 and \$4.73 for the six months ended June 30, 2012 and 2011, respectively.

Costs incurred in the acquisition and development of oil and natural gas assets are presented (1):

	Three months ended June 30,				Six months e	ded June 30,		
	 2012	2011		2012			2011	
Property acquisition costs:								
Proved	\$ 	\$		\$		\$		
Unproved	_		_		_			
Exploration	22,219		12,973		51,686		21,868	
Development costs	232,508		160,747		427,599		312,390	
Total costs incurred	\$ 254,727	\$	173,720	\$	479,285	\$	334,258	

(1) The costs incurred for oil and natural gas development activities include \$1.4 million and \$0.2 million in asset retirement obligations for the three months ended June 30, 2012 and 2011, respectively, and \$2.3 million and \$0.5 million for the six months ended June 30, 2012 and 2011, respectively.

10

Laredo Petroleum Holdings, Inc. Supplemental Reconciliation of GAAP to Non-GAAP Financial Measure (Unaudited)

Adjusted EBITDA

Adjusted EBITDA is a non-GAAP financial measure that we define as net income or loss plus adjustments for interest expense, depreciation, depletion and amortization, impairment of long-lived assets, write-off of deferred financing fees and other, gains or losses on sale of assets, unrealized gains or losses on derivative financial instruments, realized loss on interest rate derivatives, non-cash stock-based compensation and income tax expense or benefit. Adjusted EBITDA, as used and defined by us, may not be comparable to similarly titled measures employed by other companies and is not a measure of performance calculated in accordance with GAAP. Adjusted EBITDA should not be considered in isolation or as a substitute for operating income or loss, net income or loss, cash flows provided by operating activities, used in investing activities and provided by financing activities, or statement of operations or statement of cash flow data prepared in accordance with GAAP. Adjusted EBITDA provides no information regarding a company's capital structure, borrowings, interest costs, capital expenditures, working capital increases, working capital decreases or its tax position. Adjusted EBITDA does not represent funds available for discretionary use, because those funds are required for debt service, capital expenditures and working capital, income taxes, franchise taxes and other commitments and obligations. However, our management team believes Adjusted EBITDA is useful to an investor in evaluating our operating performance because this measure:

- is widely used by investors in the oil and natural gas industry to measure a company's operating performance without regard to items excluded from the calculation of such term, which can vary substantially from company to company depending upon accounting methods and book value of assets, capital structure and the method by which assets were acquired, among other factors;
- helps investors to more meaningfully evaluate and compare the results of our operations from period to period by removing the effect of our capital structure from our operating structure; and
- is used by our management team for various purposes, including as a measure of operating performance, in presentations to our board of directors, and as a basis for strategic planning and forecasting.

There are significant limitations to the use of Adjusted EBITDA as a measure of performance, including the inability to analyze the effect of certain recurring and non-recurring items that materially affect our net income or loss, the lack of comparability of results of operations to different companies, and the methods of calculating Adjusted EBITDA and our measurements of Adjusted EBITDA for financial reporting and compliance under our debt agreements differ.

The following presents a reconciliation of net income to Adjusted EBITDA:

	For the three months ended June 30,				For the si ended J		
(in thousands)	 2012		2011		2012	2011
